 Index No. 20-cv-8924 (CM) (GWG)

Your Honor:

We are counsel to the *Sow* plaintiffs. We write to request a one-month extension of time to file our class certification motion. The City takes no position on this application for an extension. We write with some reluctance given Your Honors admonition at Dkt. 849. However, we do believe this extension is warranted for the reasons set forth below. Additionally, we respectfully request that an extra 15 pages be added to our page limit for the class certification motion. The City consents to this request for extra pages.

The reason for this request is multi-faceted. First, we have engaged SITU,¹ which is an organization that assists litigants in processing large amounts of visual data, such as that which is present in this case. Prior to Dkt. 849, we understood that information being assembled by SITU in support of the *Sow* Plaintiff's motion for class certification motion would be processed in enough time to be incorporated productively into our application for class certification. While they have adapted to the expedited timetable and have been delivering their work to us at a breakneck speed, our ability to effectively process this information into a form which would be most useful to the Court would greatly benefit from an additional one month. Further, the work

obligations that this office has committed to in this case, and others, would greatly benefit from a slight modification of the class certification schedule.

Finally, and perhaps more importantly, the Sow team and the City are in serious settlement discussions to resolve the monetary class claims. Both parties are proceeding in good faith and are continuing to work towards reaching an agreement.

Accordingly, the Sow plaintiffs propose an alteration of the current scheduling order which accommodates the current request.
